

TexHealth Central Texas helps business owners attract and retain employees – and offer them the health care they need to stay healthy and on the job.

"We lost a really great guy because he went with another company that had health insurance," Charlene Myers, President, Myers Concrete Construction, Wimberley.

" TexHealth Central Texas is exactly what we need, and I think a lot of other businesses will feel the same way. It gives us the chance to take care of our people, so they can keep being healthy and productive, and so we can keep doing the good work we do." Gloria Neunaber, Director, Trinity Child Development Center

A member of the TexHealth Coalition

Finally - you can afford to offer health care coverage for your employees.

TexHealth Offers Premium Assistance for Your Qualified Employees

How Does TexHealth Strengthen My Business?

TexHealth Central Texas helps business owners attract and retain employees – and offer them the health care they need to stay healthy and on the job. The program offers small business owners the opportunity to provide affordable health care benefits to their employees.

What Benefits Does TexHealth Offer?

This program emphasizes primary and preventive care. The goal is to promote health by providing access to a doctor and other care, and encouraging healthy lifestyles. The program offers a wide choice of providers and uses United Healthcare's Choice Plus provider network.

Healthcare Benefits include:

- Doctor Visits and Specialty Care
- Emergency Room, Inpatient, Outpatient Hospital
- Pharmacy, Lab, X-ray
- Behavioral health services
- Maternity Care
- Wellness and Care Coordination

Premium Assistance Lowers the Costs for Your Qualified Employees

How Can My Business Qualify?

You can offer this coverage if you are a small business located in Travis, Hays or Williamson Counties, employing two to 50 employees, and has not offered health insurance benefits to your employees during the past year.

Employees are eligible if they work an average of 30 hours per week annually and are not receiving Medicare or Medicaid.

How Does TexHealth Help My Business Offer Affordable Healthcare Coverage?

TexHealth is an innovative, nonprofit 3-Share Plan that offers an additional benefit that covers part of the monthly cost for employees making \$16 an hour or less. That means the cost of the program is split between the employer, employee, and TexHealth. The TexHealth share reduces the cost of the plan (\$249 per month) to only \$83 per month for the employer and \$83 per month for the qualifying employee.
